Dear DeWayne,

I'd like to thank you and your staff for the work that you have undertaken on our behalf as we move closer to the Vancouver 2010 Olympic Games. I have been impressed with the all round service you have provided to us over the last three months as we built up our workforce to meet the ever growing demands of getting the stage ready for the Olympics.

I appreciate your Team's work in finding us over eighty leased employees in short order, working with our system to ensure our timesheets were translated onto your payroll system and meeting payroll deadlines, providing health and safety administration of our many sites and the overall care and consideration you provide to all of the employees that we have under lease from you.

I believe your enthusiasm and quick response to client needs will bode well for you in your ongoing client relationships and any that you may enter in the future. Thank you again DeWayne, you have provided us with a valuable service that has only helped us in our success.

Regards,

Cam Karpiak
Business Manager
